
CONTENTS

GLOSSARY	V
FOREWORD	VII
1 INTRODUCTION	1
1.1 Background	1
1.2 Status of the <i>Guide</i>	1
2 DESIGN METHODOLOGY	2
2.1 Introduction	2
2.2 Overview of design process	2
2.2.1 Determine requirements and objectives	2
2.2.2 Determine acceptable performance criteria	5
2.2.3 Assess basic level of complexity to meet requirements/objectives	6
2.2.4 Carry out qualitative review	7
2.2.5 Assess value and constraints	7
2.2.6 Carry out detailed performance-based structural fire design	7
2.2.7 Validation, verification and review	8
2.2.8 Compare analysis with acceptable criteria	8
2.2.9 Presentation of design for third party checking	8
3 FIRE BEHAVIOUR	10
3.1 Introduction	10
3.2 Localised fire	13
3.2.1 Fire plume models	13
3.2.2 Simplified method given in PD 7974-1	14
3.2.3 Two zone models	14
3.2.4 Computational fluid dynamics	15
3.3 Fully developed fire	15
3.3.1 Standard temperature-time relationships	15
3.3.2 Time equivalence	16
3.3.3 Natural fire curves	17
3.3.4 Zone models	19
3.3.5 Computational fluid dynamics	20
3.3.6 External flame models	20
3.3.7 Use of test data	21
3.3.8 Key parametric studies to determine design fires for structural assessment	21
3.3.9 Automatic suppression	22
4 THERMAL RESPONSE	23
4.1 Introduction	23
4.2 Basic principles of heat transfer	24
4.3 Test data	26
4.4 Simplified calculation models	26
4.4.1 Steel members	26
4.4.2 Concrete members	27
4.4.3 Composite members	27
4.4.4 Masonry members	27
4.5 Advanced analytical methods	28

5	STRUCTURAL BEHAVIOUR	29
5.1	Introduction	29
5.2	Basic principles	31
5.2.1	Thermal expansion and thermal curvature	31
5.2.2	Creep and transient strains	31
5.2.3	Spalling	31
5.3	Simple calculation methods	32
5.3.1	Steel members	32
5.3.2	Composite members	32
5.3.3	Concrete members	32
5.3.4	Timber members	33
5.3.5	Masonry members	33
5.4	Whole building behaviour and the use of finite element models	33
5.4.1	General principles	34
5.4.2	Conceptual model	36
5.4.3	Assessment of failure	36
5.4.4	Sensitivity assessment	36
6	CASE STUDIES	37
6.1	Introduction	37
6.2	Kings Place	37
6.3	Al Shaqab Academy and Equestrian Centre	39
6.4	Heathrow Airport Pier 6	40
6.5	Abbey Mill House	42
	REFERENCES	44
	APPENDIX A AVAILABLE TEST DATA	46
